About Us

Founded in 1969 Abracol has been manufacturing high quality abrasives for surface preparation with European technology.

Throughout the years we have created lasting relationships with our customers by providing an extensive portfolio of products and impeccable customer service. Our products can be found via the most popular channels; Distributors, Industry and Retail. These channels have provided a significant presence for Abracol products throughout the central and south American continent.

Abracol is a market leader in its national (Colombian) market, where it has its own distribution centers throughout the country. On the International level we consider ourselves a strong regional company which has exports to over 28 countries; in Central America, the Caribbean, and South America. Our International presence continues to grow with our products being exported directly to clients as well as to our own distribution centers in Venezuela, Ecuador and Peru.

Our aim is to offer our clients an optimal alternative that provides an abrasive solution that meets the highest international standards for quality, service and reliability.
